Manufacturer: OraSure Technologies, Inc.
220 East First Street, Bethlehem, PA 18015
Telephone: 610-882-1820
Fax: 610-882-1830

Product Description: Histofreezer® Portable Cryosurgery System is a professional-grade product that offers medical professionals an easy and effective method to treat nine different types of skin lesions, including common, plantar and genital warts and other common benign skin lesions.

More than 60,000 medical professionals in primary care, internal medicine, podiatry, ob/gyn and dermatology areas of care have either added Histofreezer® to their practice offering or replaced more invasive and less tolerated procedures with the Histofreezer® advantage. Histofreezer® helps medical professionals provide high-level patient care and satisfaction through quick and virtually pain free treatment of these common conditions.

Indications: Histofreezer® removes nine types of skin lesions: common warts, plantar warts, flat warts, actinic keratoses, seborrheic keratoses, skin tags, age spots, condyloma acuminata and molluscum contagiosum.

Effectiveness: Delivers effective treatment in less than 60 seconds, with results as effective as using liquid nitrogen and without the patient discomfort. Treats nine types of skin lesions in as few as one treatment.

Appropriate for Use In: Histofreezer® is appropriate for use in the following medical setting among others:

- Pediatrics
- Podiatry
- Gynecology
- Dermatology
- Primary Care

Key Product Features:

- Safe for use on adults and children 4 and over
- Appropriate for use on nine types of skin lesions
- Portable
- Easy-to-use
- Approved for use by any trained registered medical professional
- Effective treatment in less than 60 seconds
